Focus on solutions

Best in class solutions for each phase of a project lifecycle

Process Design / Simulation

Research & Development
Conceptual Design
Front End Engineering

- PRO/II
- AVEVA Process Simulation
- Visual Flare
- Pipephase

Dynamic / Learning

Safety Studies
Control Systems Check Out
Operator Training System

- AVEVA Dynamic Simulation
- OTS
- Unified Learning

Operation Support

Online Monitoring
Real-Time Optimisation
Reinforced Machine Learning

- AVEVA Dynamic Simulation
- AVEVA Process Simulation
- [AVEVA Process Optimization (ROMeo)]

For Internal Use Only. ©2022 AVEVA Group plc and its subsidiaries. All rights reserved.

AVEVA Simulation strategy

<table>

</table>

Enable our customers to extract further value of simulations across entire asset lifecycle by:

1. Seamless integration with engineering tools
2. Incorporate cost estimation analysis
3. Support our customers towards sustainability goals
4. Integration with historians and AI for online simulation for improved asset performance and operational insight

ABOUT AVEVA

AVEVA is a global leader in engineering and industrial software driving digital transformation across the entire asset and operational life cycle of capital-intensive industries.

The company's engineering, planning and operations, asset performance, and monitoring and control solutions deliver proven results to over 16,000 customers across the globe. Its customers are supported by the largest industrial software ecosystem, including 4,200 partners and 5,700 certified developers. AVEVA is headquartered in Cambridge, UK, with over 4,400 employees at 80 locations in over 40 countries.
